2U DC-MHS Server with Dual Intel® Xeon® 6 Processors

SR710

Senao SR710 is a 2U Rack server powered by Intel® Xeon® 6 processors. Designed for performance and scalability requirements, it supports 24 x U.2 hot-swappable NVMe SSDs and 8 x PCIe Gen5 expansion slots for GPU and SmartNIC integration. With the P-core/E-core architecture, SR710 delivers outstanding computing density and scalability.

Expans i on

PCIe Gen5 slots

Up to 8 x PCIe Gen5 expansion slots for GPUs and SmartNICs.

Performance

Dual Xeon® 6 SP

Dual Intel® Xeon® 6with P-core/E-core architecture.

Memory

16 channels DDR5

Up to 32 x DDR5 ECC RDIMM.

Storage

NVMe SSD and RAID

Up to 24 x 2.5-inch U.2 NVMe PCIe Gen5 hot-swap bays with Intel® VROC premium support.

Management

Modular DC-SCM

DC-MHS design keeps infrastructure serviceable and upgradable.

Scalability

CXL 2.0 Ready

CXL 2.0 support enables future-ready memory and device expansion.

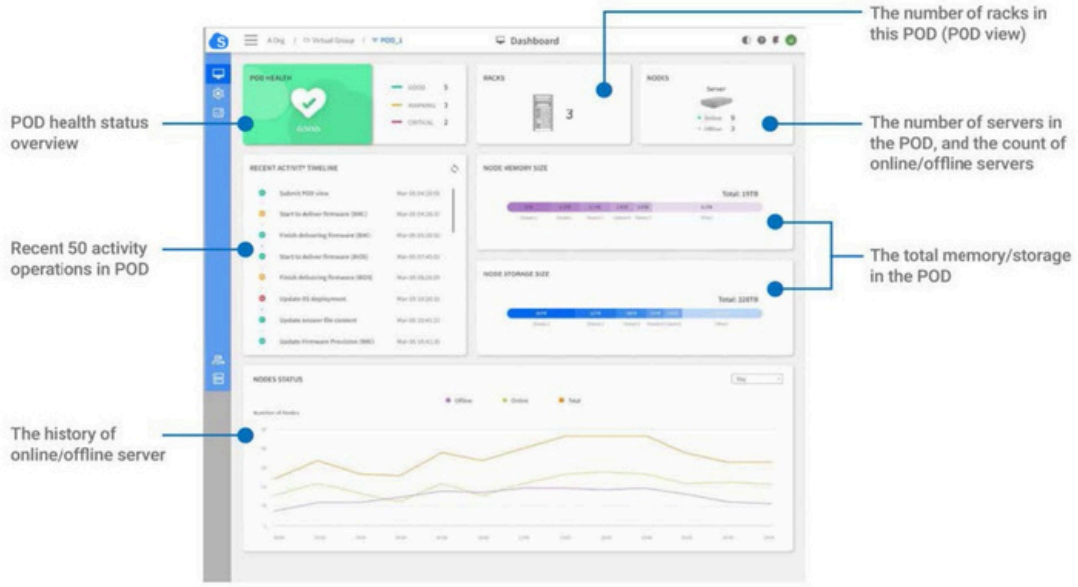
P owe r

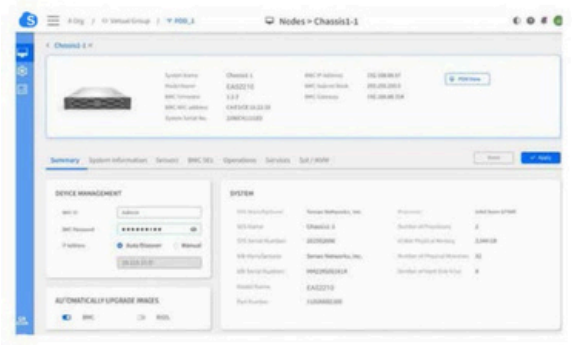
Redundant Power

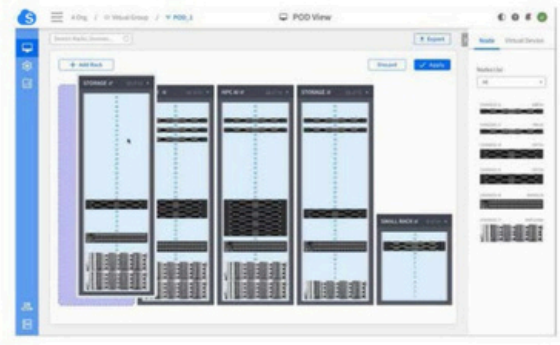
1+1 redundant 2200W CRPS
Designed for 80 PLUS Titanium Efficiency

Server Centralized Management

The server management is the cornerstone of simplified, efficient management tool for your Senao GPU and Rack servers. This powerful, license-free platform provides comprehensive out-of-band management capabilities, empowering IT teams with unparalleled control and visibility over their entire server fleet from a single interface.







Simplified Firmware Updates

Push unified firmware updates to multiple servers simultaneously, ensuring consistency and reducing maintenance overhead.

Visual POD View

Gain a physical-to-logical view of server groupings with intuitive POD visualization, enabling more efficient resource mapping, configuration, and infrastructure monitoring.

Out-of-Band Control

Manage servers even if the operating system is unresponsive or powered off, ensuring continuous uptime and remote troubleshooting.

Remote Diagnostics & Troubleshooting

Gain real-time insights into server health, performance metrics, and system logs, enabling proactive issue identification and rapid resolution from anywhere.

Unified Device Management

Centralized control over all Senao servers, eliminating the need for individual server access.

Scalable Deployment

Designed to manage a growing number of servers, providing seamless scalability as your data center expands.

Technical Specifications

OCP Server	
Model Name	2U Rack Server
Model Number	SR710
Form Factor	2U Rackmount
Processor	IIntel® Xeon® 6 (6500/6700 Series)
GPU	N/A
Memory	32 x DIMM slots DDR5 ECC RDIMM 6400 MT/s 1DPC 5200 MT/s 2DPC
Drive Bays	24 x 2.5-inch NVMe PCIe Gen5 Hot-Swap drive Intel® VROC Premium
System Cooling	Air Cooling
Available Expansion Slot	6 x PCIe Gen5 x 8 FH3/4L 1 x PCIe Gen5 x 8 HHHL 1 x PCIe Gen5 x 16 FHHL 2 x OCP3.0 Gen5 x 8
I/O Port	Front: 2 x USB3.0 Type A Rear: 1 x USB3.0 Type A 1 x Mini Display 1 x USB Type A Console 1 x MGNT RJ45 GE
Power Supply	1+1 CRPS 2200W 80 PLUS Titanium Level
Security	TPM 2.0 PFR 2.0 Intrusion Detection
Chassis	438 x 790 x 88 mm Weight: Approx. 25 kg
Environment	Operating Temperature: 10–35°C Storage Temperature: -20–60°C Relative Humidity: 10–90% RH, non-condensing
